The design of furniture and furnishings is evolving continuously. In order to stay competitive and keep pace with an ever accelerating marketplace, manufacturers have to be actively engaged in the evolution of product and design trends. And so is Häfele. In response to the dynamics of an ever-changing market, we are constantly developing innovative furniture fittings and hardware solutions and updating our product range. High-tech, lightweight furniture is just one of the emerging trends and Häfele has developed a comprehensive assortment of lightweight panel fittings that we are proud to introduce worldwide in this edition of “The Complete Häfele” catalogue.

We embrace new ideas to develop and manufacture high quality, user-friendly products in our 5 manufacturing plants, resulting in “Made in Germany” fittings and hardware technology.

However, we are not just interested in new technology and new trends. It is our goal to provide you with a comprehensive product range that meets all of your unique requirements – be it for industrial mass-produced furniture or custom 5-star hotel rooms. We provide you with the solutions that will help you develop and accelerate your own business. And this commitment goes well beyond any individual product.

Specific end user requests also challenge the hardware industry to address their unique requirements: End users demand specific benefits and value from furnishings and furniture, they demand optimal functionality. And hardware technology plays a leading role, because this is exactly what it is designed to provide, optimal functionality.

As a partner to the international furniture industry and trade, we provide a complete range of fittings and hardware from a single source, quickly and reliably, from stock.

Take advantage of these benefits and stay ahead of the competition.

Perfect connections

The Ixconnect brand covers an extremely wide and deep range of connectors and lightweight panel fittings. Using the right fittings makes furniture manufacture considerably easier. We give you advice about the suitable fitting for your furniture in an integrated way and with considerable technical expertise – regardless of whether it is flat packed furniture or custom-made designer furniture. The lightweight construction options with Ixconnect are completely new.

Connectors and lightweight panel fittings: Product group 2

High-tech for modern equipment

Dialock, the electronic locking system from Häfele, helps you to transport your customers to the world of tomorrow. Opening and closing discreetly and without contact – providing optimum functionality in many project areas such as shops, hotels, banks, laboratories and offices. User access authorisations can also be set up using the key, an innovation with which you can surprise your customers. Find out about Dialock – it is extremely easy to process.

Electronic locking systems: Product group 4

Living comfort in all walks of life

Life is extremely comfortable for young and old with Vitaflex products. In an age of increasing needs and the urge for individuality, the demand for sophisticated hardware solutions is also on the increase. We have created a product range that can considerably improve the comfort of equipment and furniture. We have marked the relevant pages with the Vitaflex logo. These products are also extremely suitable for use in barrier-free environments.

Comfortable living: Vitaflex products are marked with the Vitaflex logo on the catalogue pages

Office equipment

Officys is our special range of modern office equipment from a single source. As a developer and manufacturer of built-in office furniture systems, we provide innovative solutions that are mature down to the finest detail, such as the Idea Motion desking system with height adjusting facility.

Office equipment: Product group 9

Made-to-measure products and services

The Topco service makes it possible for you to conveniently order ready-made components for immediate installation in furniture and equipment – even from a quantity of one. Made-to-measure aluminium frame doors, for example.

Made-to-measure products: Topco products are marked with the Topco logo on the catalogue pages
Global connections
Häfele provides you with a product range containing more than 100,000 catalogued products from stock, and can also procure special fittings via its international contact network if necessary. Häfele therefore provides you with the right hardware solution for any need or requirement.

Round the clock ordering
The Internet is today’s form of communication. For this reason we have developed easy link – the convenient Häfele Internet service. You can choose your products online and also obtain the latest information about prices and availability – round the clock, seven days a week. And you can order whenever you like.

Economic planning and construction
Häfele Tec Services provide you with a facility for downloading tender texts, CAD data, construction plans, installation and operating instructions and much more on the Internet. If you have complex hardware systems, Tec Services CAD contains a configuration tool for detailed furniture planning. Tec Services can be called up at any time at www.hafele.com.

We provide reliable logistics
Be it “just in time” or delivery to different destinations – we ensure that your delivery reaches its destination quickly and reliably. If you require special packaging or labelling for your hardware, our packaging engineers will find the best solution.
Häfele, which was established in 1923, is now an internationally oriented family-run company based in the German town of Nagold. Häfele supplies the furniture industry, the building trade and the trade with furniture fittings, architectural hardware and electronic locking systems in more than 150 countries, Häfele also assists planners and investors with a professional project service.

If Häfele is not represented in your country, you will find the right contact in our main export department:

**Main export department**
Häfele GmbH & Co KG, Adolf Häfele Str. 1, D-72202 Nagold
Phone: +49 (0)7452 / 95 - 310, Fax: +49 (0)7452 / 95 - 305, Email: info@hafele.com
Delivery from the warehouse
Häfele has a gigantic main warehouse at its headquarters in Nagold and also has regional warehouses in 32 countries. Our customers are therefore efficiently supplied on site at all times.

Development and production
Häfele develops and manufactures exclusively in Germany. Sophisticated products are manufactured by Häfele in five different locations that are used in furniture, kitchens, office furniture and project furnishings. With many innovative product developments, Häfele has become the technological trendsetter for the furniture industry.

Häfele near you
«On site» is our motto. As well as our headquarters in Nagold we now have more than 40 national companies and a globally organised sales network – all looking after the special needs of our customers in the respective markets. You can also experience Häfele products live in many showrooms and at international exhibitions.
Furniture Handles, Wardrobe Hooks
Perfect match?

The choices for furniture surface design are unending. The number of different options for combining materials is also infinite. Matt aluminium matches almost all surfaces. Polished or chrome plated handles are a perfect match for dark wood. Let the interplay of contrasts and the combination of shapes and colours inspire you.
It's playtime

Why not have leather handles on furniture, or a glass handle on high-gloss furniture? Or playful shapes for children’s furniture? We have compiled a range which suits exotic tastes and encourages playfulness with shapes and materials - without neglecting the functional requirements.
